

STRIVE

YEAR 8

Portland Place School

WHY?

FOSTER
YOUR PASSION
AND ENTHUSIASM
FOR THE SUBJECTS
YOU LOVE IN FUN
AND EXCITING
WAYS.

STRETCH
YOUR
LEARNING
OUTSIDE THE
CLASSROOM.

BEGIN
THINKING
AND
EXPERIMENTING
WITH DIFFERENT
WAYS OF
LEARNING.

DEVELOP
STRATEGIES FOR
INDEPENDENT
LEARNING WHICH
WILL BE ESSENTIAL
FOR SUCCESS.

We will give you recommendations based on what you can:

STRIVE

DO

At Portland Place we want to provide you with the opportunity to:

- Excite and broaden your mind on your favourite topics and subjects.
- Stretch your learning far beyond the classroom.
- Empower you to set your own learning direction.
- Inspire and motivate you.

We want to provide you with the opportunity to explore topics and issues further, to develop a sense of questioning and curiosity. When we are curious, we see things differently, making connections and experiencing moments of insight and meaning – all of which provide the foundation for rich and satisfying life experiences.

This booklet outlines The Strive Programme, allowing you to harness your curiosity and deepen your interest and engagement of a particular subject through closer study. Each subject has suggestions about things you can, **WATCH, READ, LISTEN, SEE AND DO** to foster your passion and enthusiasm for the subjects you love and develop strategies for independent learning. The tasks are designed to be done at your pace and in your own time. There will be lots of opportunities during the year to submit your ideas and anything that you have created to our Strive Celebrations, where there will be awards for the most interesting, original and creative ideas. Your teachers are on hand to help you at any moment, so do not hesitate to ask!

Strive Further

If you would like to develop your curiosity into a project, you will have the opportunity to apply for an Extended Project Qualification (EPQ) Level 1 which is the equivalent of half a GCSE. The qualification can be taken over one or two years depending on which year you are in. This is an amazing opportunity to really undertake rigorous research into a topic of your choice.

This is about you making a choice, not your teachers!

Choose a topic of your choice and either write a research report on your chosen topic of 1000 words, or produce a film, organize an event or create an artefact which is accompanied by a research report of 250 words. There will also be a commitment of one lesson a week that will be timetabled in addition to your normal lessons. If you are interested, there will be a meeting in September.

ART

"For me, there is very little difference between magic and art. To me, the ultimate act of magic is to create something from nothing: It's like when the stage magician pulls the rabbit from the hat." - Alan Moore

Studying Art gives us the opportunity to see with new eyes and engage with life creatively and affirmatively. The Strive Programme provides you with an opportunity to deepen your knowledge and skills so that you are able to improve the standard of your school art projects and take on exciting ideas and challenging projects of your own. Feel free to pick the topics that interest you most and use them as a springboard into further discoveries and artistic adventures. The key aspect of strive is to open yourself up to new possibilities, ways of thinking and expressing yourself, whilst building sound subject knowledge and skills.

COMPUTER SCIENCE

Do you want to be an active participants in a digital society? Do you want to develop your own ideas at a level suitable for your future workplace? A high-quality education in Computer Science will definitely help you to enhance creativity and computational thinking in order to understand and reshape the world.

If a hospital, a university or a bank has a need for a new software or hardware, "someone" has to think up how the software should operate, or how to make a better use of the hardware. We are convinced that that "someone" could be you!

And remember: "Whether you want to uncover the secrets of the universe, or you want to pursue a career in the 21st century, computer programming is an essential skill to learn." - Stephen Hawking

Choose one of the projects propose by the RaspberryPi.org and apply your Computing skills. You will surprise yourself!

Opinion: How artificial intelligence transforming the world.

DRAMA

There are so many different ways to learn about Drama. It's amazing how it helps with self-confidence, self-awareness, and emotional intelligence. These are all life skills that are so important for every person to have!

In addition to the lessons and extracurricular activities the Drama Department put on, you should be trying to visit theatres to see plays and musicals as much as possible. By doing this it will teach you more about acting and using the stage in interesting ways than lessons ever would! It will challenge your appreciation and understanding of live theatre.

London has a huge variety of live theatre venues, with every genre and style you could possibly want. Go and visit something different to what you would normally see. You may like it, or you may not, but everything you see will teach you something about the world of theatre. There are so many theatres around London, here some places you could go...

READ

How about reading about theatre here:

Reviews at Telegraph Culture Theatre:
<http://www.telegraph.co.uk/theatre/>

Actors biographies
<https://www.biography.com/search?query=actors>

WATCH / VISIT / SEE

www.digitaltheatreplus.com has some recorded theatre of excellent quality. Well worth watching from home. Get the popcorn and tissues out – some are tear jerkers!
Username: student@portland-place.co.uk. **Password:** Student123

National Theatre, Royal Festival Hall, Southbank Centre, British Film Institute (range of free and priced performances across a range of theatrical styles and genres).

Shakespeare's Globe Theatre (tours also available for groups!)

Full list of London Theatres and what is on can be found here:
<https://www.londontheatre.co.uk/theatres>

LISTEN

To challenge and inspire yourself, it is important to listen to a wide variety of Drama based podcasts and talks that you would not usually engage with. It will only help you progress in Drama, and become a more rounded person! Listen to the way they talk. Tone of voice is key with radio. Here are some suggestions:

Desert Island Discs – for Kirsty Young's interviews with famous and inspirational people.
<http://www.bbc.co.uk/programmes/b006qnmr/episodes/player>

BBC Radio 4 – Afternoon Drama
<http://www.bbc.co.uk/programmes/b006qrzz/episodes/player>

DO

You should be trying to take part in out of school Drama clubs and workshops wherever possible. There are so many to choose from, and are all over London.

Clubs

LAMDA at Portland place School – email david.chivers@portland-place.c.uk

Projects

- Learn a monologue two minutes long – focus on use of voice and movement appropriate for the character.
- Write a short script focussing on climax and anti-climax. How do you achieve this with just two characters?
- Create a 'shoe box set' and/or costume design for a show of your choice.

Research project

- On Edward Gordon Craig and his use of creative staging methods.
- On Sam Mendez and the comparisons between his film and stage design. Any crossovers between his themes and styles?
- On Bertholt Brecht, playwright and director. What are his theories and ideas and how are they implemented?

DT

The beauty of design is that it is all around us, and this provides scope for your own interpretation when it comes to developing a path of curiosity. Whether your interest is in fashion; architecture; sculpture; video game design; graphics; product; textiles; It all falls under the umbrella of design.

The STRIVE activities in this booklet are to help you flourish and to enjoy design even more, widening your knowledge of what design can be, and learning about the exciting things which are happening in the world of design. What are you interested in? Which way do you want to take design? Creativity is all around us, and this is an opportunity to immerse yourself in possibility!

ENGLISH

"You develop the insight of an artist, the analytical precision of a scientist and the persuasiveness of a lawyer." - Prof Moran, Brunel University.

Do you have an interest in being creative, putting forward an opinion or communicating with and influencing others?

Whether you are a budding novelist, playwright, lawyer, journalist or politician, engaging with English beyond the classroom will get you excited about the world and provide you with a set of skills that will open up many possibilities for you.

The key to the STRIVE activities in this booklet is that you choose what interests and excites you about English, and take the opportunity to make the subject your own, refining the skills you enjoy the most!

And remember: *"The pen is mightier than the sword."* - Edward Bulwer-Lytton

Visit a live poetry reading.

DO

Become a flâneur or a flâneurness; walk around London writing a description of what you see. Remember to use noun phrases (adjective + adjective + noun) to enrich your writing.

Write your own poetry in one of the poetic themes studied this year.

Join the KS3 book club which meets every Thursday in the school library at 1pm. Read the whole list of Carnegie books and write a review for the Portland Post newspaper.

GEOGRAPHY

"Geography is a living, breathing subject, constantly adapting itself to change. It is dynamic and relevant. For me geography is a great adventure with a purpose." - Michael Palin

Challenging yourself in Geography is all about independent learning and exploring the world around you! As you will see from a cursory glance at the news Geography is everywhere, not just in the classroom!

STRIVE is all about taking what you have learnt in lessons and helping expand your knowledge.

STRIVE gives you suggestions of programmes you can watch, places you can visit, books you can read and activities you can attempt in order to answer YOUR questions about Geography.

HISTORY

"Twenty years from now you will be more disappointed by the things that you didn't do than by the ones you did do. So throw off the ropes. Sail away from the safe harbour. Catch the trade winds in your sails. Explore. Dream. Discover." - Mark Twain

History is more than textbooks, more than sources and more than facts. History is not dead in the past, but alive within and around us. It is exciting, fun and inspiring to engage with it and open our mind up to new topics and ways of thinking. The study of History is limitless, never confined to one country or one period. You can use STRIVE to explore the past, to dream of future possibilities and discover your creativity. The sky is the limit so get navigating!

DO

Argue:

How do you think the British Empire should be remembered and why?

Investigate modern forms of slavery and write/ design a piece on why it is so important to raise awareness on contemporary forms of slavery.

Explore the life of one of the women who fought for the right to vote and design an argument on why they were so important.

Explore the life of one woman in the present day who is fighting hard for female equality and write/ design a piece on why their contribution is so important.

Write a persuasive argument on who you think was to blame for the sinking of the Titanic.

Create:

Write a short story on either:

Life during the French Revolution/ Industrial Revolution. Life as a suffragette. Life on board Nelsons ship. Life on the Titanic, this can be from a lower/ middle/ upper class perspective.

Design:

A project on the changing fortunes of one country during the British Empire.

Design a memorial to the British Empire, what should it include and why?

A memorial to commemorate the centenary of women getting the vote.

Your own museum exhibition on the Titanic, what objects/ stories would you include and why.

Your own 3D Titanic ship, including key information and labelling.

Your own project on the Titanic, this can take any format and explore how the ship was built, who travelled on it, why it sank and what happened afterwards.

MATHEMATICS

The activities suggested here are just for fun and for those that enjoy solving puzzles, learning some clever tricks, delving deeper into problems and knowing a bit more. Engaging with them can not only help you develop better problem solving skills whilst having some fun, but also to see patterns and help see the wide uses and applications of mathematics around us. Keep on striving!

FRENCH

Strong language skills are an asset that will promote a lifetime of effective communication. Our language is the most important part of our being. It is important to learn other languages, other forms of communication besides our own because it helps us to learn about other peoples and cultures.

This STRIVE MFL booklet not only will allow you to improve in a new language, but will self-teach you that a language is not just words. It's a culture, a tradition, a community and a history; all embodied in a language.

"Language is a process of free creation; its laws and principles are fixed, but the manner in which the principles of generation are used is free and infinitely varied. Even the interpretation and use of words involves a process of free creation." - Noam Chomsky

Lu Xun: 《故事新编》

WATCH

Don't get the popcorn popping just yet. First, we have got to go over some strategies for how to approach Chinese language films.

Watch actively. Sure, some days you'll want to just sit back and relax, not worrying if you've understood every last detail. However, you will get much greater educational value out of an active watching experience. Pause and rewind when you miss half of a complicated dialogue. Go back and watch these tricky scenes until you understand every word. As you watch the same scene repeatedly, keep an eye on the subtitles below and mouth lines along with the actors if possible. Keep a notebook nearby and jot down new vocabulary or puzzling sentence structures so you can revisit what you have learned later. These steps towards actively watching movies will help you pay closer attention and become thoroughly engrossed in the language.

Use Chinese subtitles to your advantage. Too many language learners slip into the habit of watching Chinese movies with English subtitles and using their more comfortable language as a crutch. Alternatively, just as many Chinese students try to fly solo and play movies without any subtitles at all, inevitably resulting in undue frustration.

Pick genres and topics that you genuinely enjoy. You want to learn about Chinese history and culture, or understand more about the Cultural Revolution – that's all well and good. However, you will steadily lose interest if you keep choosing movie after movie featuring dry topics or genres you're not really into. Are you a total adrenaline junkie who needs a regular diet of action movies? Then don't force yourself to choose historical dramas because they're more educational.

You can learn Chinese from all types of Chinese movies!

1. 活着 (Huózhe) | “**To Live**”
<https://youtu.be/lyzRpEMnv98>
2. 蓝风筝 (Lan fengzheng) | “**The Blue Kite**”
<https://youtu.be/4acE4QGqoy4>
3. 和你在一起 (He ni zai yiqi) | “**Together**”

Do: write a report of 30 to 120 words in Arabic about what you read, watched or listened to in Arabic to share it with your class

MUSIC

“Without Music, life would be a mistake.” - Friedrich Nietzsche

Whether you enjoy it as a performer, a singer, as a beginner or more advanced, as a listener or just appreciating it as it forms part of your everyday life, Music is all around us and something that you can engage with on so many levels.

Whether you want to pursue Music as an academic subject in the future, see it as a career path as a music performer, journalist, backstage or producer, or simply want to appreciate it and engage with it, there are so many ways to be involved in the Universal Language of Music.

The STRIVE programme in Music is there to challenge you, to get you involved at whatever level you wish, to allow you to participate and to build a whole range of non-musical key skills such as creativity, appreciation, self-discipline, team-work and problem-solving necessary for life and work in the 21st century.

“Music expresses that which cannot be said and on which it is impossible to be silent.” - Victor Hugo

The best way to challenge yourself in Music is to get involved, get playing, get singing and join in with others who do the same.
PLAY – PARTICIPATE – PERFORM

READ

How about reading some music reviews here <http://www.telegraph.co.uk/music/> or some musician biographies <https://www.biography.com/people/groups/musician>

WATCH

In addition to playing, participating and performing, you should challenge your appreciation and understanding of live music. London has a wealth of live music venues, catering for every musical genre and style. Go visit something musically different – listen to it carefully. You may like – you may not, but at least you can say you’ve tried it! Here some places you could go...

Royal Festival Hall, Queen Elizabeth Hall, Purcell Room in the South Bank Centre (range of free and priced performances across a range of musical styles and genres).

Buskers on the south bank, Leicester Square, Covent Garden.

National Theatre foyer (free lunchtime and early evening performances of world music, jazz, fusion and many other styles).

There are also lots of music documentaries to watch – here are some top ones: <http://www.vulture.com/2015/10/50-best-music-documentaries-of-all-time.html>

LISTEN

To challenge yourself, it is important to listen to musical styles that you would not usually engage with. Here are some suggestions:

Classic FM – for accessible classical music

BBC Radio 3 – for more diverse classical music, jazz and folk music

BBC Radio 2 – popular and folk music from 1950's to early 2000's (not current)

Telegraph Music Pages

<http://www.telegraph.co.uk/music/>

PLAY

You can sign up for tuition on any of the following instruments:

- Singing
- Piano – Classical or Jazz
- Guitar – Electric, Acoustic or Classical
- Bass Guitar
- Drum Kit or Orchestral Percussion (xylophone / glockenspiel)
- Woodwind – Flute, Clarinet, Saxophone or Recorder
- Strings – Violin, Viola, Cello or Double Bass
- Brass – Trumpet or Trombone
- Music Theory
- Music Technology

See Mr. Hill or Miss Boyle for an application form.

PARTICIPATE

We have loads of extra-curricular groups which you can join, some for those who already play instruments, and those that are open to everyone. The best way to develop your skills is to perform with others.

These groups are open to everyone: These groups are open to those who play instruments already:

What?	When?	Where?	Other Info?
Ukulele & Guitar Ensemble	Monday lunchtime 12:45-13:30	Room 2 Mr Hill	Ukuleles & guitars provided!
Percussion Ensemble	Tuesday lunchtime 12:45-13:30	Room 2 Mr Jesson	All abilities welcome!
Symphonietta	Tuesday lunchtime 12:45-13:30	Room 43 Miss Boyle	Learn theory from scratch or improve your existing knowledge
Theory Club	Wednesday lunchtime 12:45-13:30	Room 42 Ms Bottrill	Learn theory from scratch or improve your existing knowledge
PPS Choir	Thursday lunchtime 12:45-13:30	Room 1 Mr Hill	Range of songs and styles.
Music Tech Club	Thursday after school 15:45-16:30	Room 42 Mr Bentley	Learn to use music technology from scratch or improve your existing skills

PERFORM

By joining any of these ensembles, you will get chance to perform at the Christmas and summer concerts annually, but even as a soloist you could take part in these concerts, or in the Lower School Chamber Concert – see Mr Hill or Miss Boyle

What?	When?	Where?	Other Info?
Woodwind Ensemble	Monday lunchtime 12:45-13:30	Room 1 Mr Slack	For all woodwind players.
Brass Ensemble	Thursday lunchtime 12:45-13:30	Room 44 Mr Bentley	For all brass players.
Chamber Choir	Thursday after school 16:00-17:00	Room 1 Miss Boyle	For singers – audition required
PPS Strings	Friday lunchtime 12:45-13:30	Room 1 Miss Boyle	For all string players
PPS Jazz Band	Friday lunchtime 12:45-13:30	Room 2 Mr Hill	For brass, woodwind and rhythm section (bass, piano, drums, guitar).

PE & ATHLETICS

The best way to challenge yourself in Athletics is to get involved, get training, get racing and join in with others who do the same.

TRAIN – RACE – PARTICIPATE – COACH & OFFICIATE

READ

England Athletics Athlete Education Zone

The Athlete Education Zone aims to provide support to ALL registered athletes via electronic resources, video / podcasts, and signposting to external specialist organizations to assist the athlete in developing/mastering the necessary skills to cope with the special demands of progressing to become an elite performer.

<https://www.englandathletics.org/england-athletics/athlete-zone>

WATCH & VISIT

Go to a live event, there are plenty of opportunities to watch high level athletics. In 2012 London hosted the Olympic Games, in 2017 London hosted the IAAF World Athletics Championships and in 2018 London host the IAAF World Athletics Cup. The Anniversary Games is an Annual International event held in London over 2 days and there are also plenty of live athletics events screened on television throughout the year. You can find out about events and buy tickets for them from the UK athletics website:

<https://www.britishathletics.org.uk/events-and-tickets/>

Check out British Athletics TV where you can learn lots of interesting facts and see some great interviews from GB's top athletes:

<https://www.britishathletics.org.uk/british-athletics-tv/>

LISTEN

To keep up with the latest action and news in athletics you can listen to various broadcasts. Here are some suggestions:

BBC Radio Five - Live – for all sport

BBC iPlayer Radio – Categories Sport – for all sport
[Talksport.com/athletics](https://www.bbc.com/sport/athletics)

TRAIN

Join a local club. Athletics Clubs are always looking for new members and offer lots of opportunities to compete as well as make friends. Clubs local to Portland Place are Serpentine AC and Highgate Harriers, but there are many more in London which can be found in the England Athletics Club finder

<https://www.englandathletics.org/athletics-clubs/find-an-athletics-club>

PARTICIPATE

During lessons the PE department will run the English Schools Athletics Association Award Scheme. Challenge yourself to achieve as many levels as you can across the different events and collect the badges on offer. Primary Schools have 5 levels: 1, 2, Bronze, Silver, Gold and Secondary Schools have 3 levels: Bronze, Silver, Gold.

Try and improve your personal best or break a record. The School Records and Sports Day records can be found on the notice boards in the basement of PPS!

See how you rank against people your age from all over the country. Check out the Power of 10 website for all the latest rankings.

<http://www.thepowerof10.info/>

There are several competitions that Portland Place enter and run that range from School to National Level. Set yourself a target and aspire to compete at a higher level competition. The best way to develop is to perform with and against others.

What?	When?
Portland Place Sports Day	Summer Term
Westminster Sports Hall Athletics	Spring Term
ISA London North Athletics Championships	Summer Term
Westminster Athletics Championships	Summer Term
London Schools Yr 7 & 8 Championships	Summer Term
London Schools Secondary Schools Championships	Summer Term
ISA National Athletics Championships	Summer Term
ESAA National Athletics Championships	Summer Term

COACH & OFFICIATE

Help out during lessons or assist with school teams. You don't have to be a performer to add value in this sport. From the age of 14 you can qualify as an Athletics Leader or from ages 16+ as a Coaching Assistant.

Gain a coaching qualification

<https://www.englandathletics.org/coaching---central-to-successful-athletics/qualifying-as-a-coach>

Gain an official qualification

<http://www.uka.org.uk/competitions/officials/education-and-training/level-1-2-3-track-and-field/>

FOOTBALL

The best way to challenge yourself in Football is to get involved.

Get playing, learn the game, practice, watch and enjoy the many avenues associated with football. You can Train, Play, coach and officiate.

READ/LISTEN

F2 – How to play like a pro

BBC – radio 5 Live (Live commentary and discussions every day)

BBC – iplayer (Match of the day) **Jamie Johnston** football podcast for kids

WATCH & VISIT

The coverage of football in our country is sensational and always free ways to watch the weekend's top level football. BBC is a free channel and they have highlights every week of the premier league matches. In addition, they show a selection of FA cup matches during the tournament. Other organisations such as Sky Sports and BT sports offer excellent coverage for a monthly fee.

Local clubs are great to go and watch. You don't have to just see Tottenham or Chelsea to fully enjoy getting out and watching live football. Some more local teams such as Brentford is much more competitively priced. Semi-professional matches such as in the Southern league are also to an excellent standard.

PARTICIPATE:

Join a club! Football clubs are always looking for new members. The great thing about joining a club is that there will be many people of a similar ability. Local clubs are huge and they will have sections specifically to beginners, youngsters, boys, girls all the way to county league football teams. Depending on your ability there really will be football for all! Clubs are also a great way to meet friends who have a similar interest in such a great sport.

You can find a club local to you by following the following link:

<http://www.thefa.com/get-involved>

Developing at PPS: Teachers are always looking to nominate footballs to regional development opportunities. At PPS we work closely with ISFA (<http://isfa.org.uk>) and each season will nominate appropriate candidates from trials into the London regional teams. Challenge yourself to be nominated for further football opportunities and test yourself against the best players in the region.

OFFICIATE

Playing the game is not the only way to get yourself on a football pitch. Another route into football is becoming a referee. You can become a referee age from 14 and start locally with mini soccer. More information on becoming a referee can be found here:

<http://www.thefa.com/get-involved/referee/general-information>

COACH

When you turn 16 years of age you can start the coaching pathway. The pathway starts at level 1 and reaches level 5. Level 5 is the Uefa Pro Licence and all premier league managers must attain this certificate. All managers of elite level would have started at level 1 and learn the basics of coaching younger children. For more information on how to get into coaching visit this link:

<http://www.thefa.com/get-involved/coach>

NETBALL

Netball is a fantastic sport played by over 155,000 women every week, it is a sport I team game based on running, jumping, throwing and catching it is the only female sport to be given weekly TV coverage by Sky Sports.

The best way to challenge yourself in Netball is to get involved, get training, get playing and join in with others who do the same.

TRAIN – PLAY – COACH – OFFICIATE

READ

England Netball Youth / School Zone

The Netball Youth/ School Zone aims to provide support to netballers via electronic resources, video and podcasts, to assist the netballers in developing/mastering the necessary skills to develop into a successful netball player.

READ

Rounders England Fan Zone #WeAreAllRounders

https://roundersengland.sport80.com/register/membership?id_add_on=54&_id=1472634898

The Rounders England Fan Zone aims to provide support to ALL registered athletes via electronic resources, video / podcasts.

What you get

Regular updates – keep up to date with exciting news and stories from the Rounders community, England Squad, official rules and equipment.

Courses – exclusive access to Rounders England courses including Coaching, Umpiring Tutoring and more.

Player toolkit – Rounders England one stop shop for clubs, team and workforce for practical resources. Coming 2018

How it works

Share your rounders stories, ask questions and get involved with the community.

Get picked – every day we pick out the latest and greatest to show off via our social media channels.

The bigger picture – our club is full of Rounders enthusiasts who will shower you with support and guidance.

WATCH & VISIT

There are four England squads that represent Rounders England at fixtures over the playing season. They play annually, in home and away games. The squads are elite players and are ambassadors for England and for the sport of Rounders.

Rounders is a great spectator sport. You can find out about events and festivals, that are free of charge, Rounders England website:

<http://www.roundersengland.co.uk/england-squads/fixtures/>

LISTEN

To keep up with the latest action and news in rounders you can listen to various broadcasts. Click the link to see Rounders in the media:

<http://www.roundersengland.co.uk/rounders-in-the-media/>

TRAIN

Join a local club. Rounders Clubs are always looking for new members and offer lots of opportunities to compete as well as make friends. There are many clubs in London which can be found on the Rounders England website

<http://www.roundersengland.co.uk/>

PARTICIPATE

Rounders is a fun, team sport that both boys and girls can play whatever their ability. Rounders also helps develop core skills in running, batting, throwing, catching and fielding. There are several fixtures that Portland Place PE department organise against other local schools. The best way to develop is to perform with and against others.

COACH & UMPIRE

Coaching Rounders is a rewarding and inspiring experience. You could work with players at all levels of skill and experience, from juniors' right up to elite level. You can make a real difference to the game and to the players you work with.

You don't need to be a skilled player to be a great coach. An enthusiasm for teaching and a passion for the game are much more important and vital to the success and development of Rounders in England.

Gain a coaching qualification

<http://www.roundersengland.co.uk/get-involved/coach/ukcc-level-1/>

Umpiring is a great way to be involved in Rounders. It gives you the opportunity to give something back to the sport you love, whilst also helping to increase participation. There are opportunities to be involved in Rounders in a capacity that suits you, whether you want to umpire at your local team or progress to elite umpiring.

Gain an umpiring qualification

<http://www.roundersengland.co.uk/get-involved/umpire/about-preliminary-umpire/>

RULES

RUGBY

The best way to challenge yourself in Rugby is to get involved, get training, get playing and join in with others who do the same.

TRAIN – PLAY – COACH – OFFICIATE

READ & LISTEN

To keep up with the latest action and news in Rugby you can visit various websites. Here are some suggestions:

BBC Sport Rugby - <http://www.bbc.co.uk/sport/rugby-union>

Sky Sports Rugby - <http://www.skysports.com/rugby-union>

RFU Rugby - <http://www.englandrugby.com/>

There are also some excellent autobiographies that various ex-players have written over the years, full of interesting tales from their experiences as a professional player!

Dan Carter

Jonny Wilkinson

Jonah Lomu

Paul O'connell

WATCH & VISIT

Go to a live event, there are plenty of opportunities to watch professional rugby both live and on TV. The Aviva Premiership Rugby League hosts fixtures at weekends over a number of months throughout the year. The league is extremely competitive and entertaining with a number of top level internationals from all over the world playing on a weekly basis. One of the great things about the Aviva Premiership is that every single fixture played is on BT sport, so there are plenty of opportunities to watch a game live on TV.

As well as the Aviva Premiership in England there are also extremely competitive and entertaining leagues worth watching including: Guinness Pro 14 (Wales, Ireland and Scotland), French Top 14 (France) and Super Rugby (Southern Hemisphere).

AND...

On top of all this there are amazing international tournaments that you need to watch! 'The 6 Nations' tournament see's Europe's strongest rugby teams battle it out every year from January to March. The 'Rugby Championship' tournament see's New Zealand, South Africa, Australia and Argentina compete to be crowned the best team in the southern hemisphere. Every 4 years there is a rugby world cup.... There are various international tours... the list goes on! There really are plenty of opportunities to watch rugby live on TV or in person at a an amazing stadium with an unforgettable atmosphere.

TRAIN

Join a local club. Rugby Clubs are renowned for being welcoming of people from all walks of life, of all playing abilities and of all shapes and sizes! There is a real 'family culture' in local Rugby Clubs. The most local club to PPS is Regents Park Rugby Club but there are many more in London and England which can be found in the England Rugby Club finder:

<http://www.englandrugby.com/my-rugby/find-rugby/>

PARTICIPATE

During lessons the PE department will teach you how to perform core rugby skills and help you to increase your tactical awareness. We will teach you how to perform a range of skills with good technique and help you to increase your understanding of positional awareness in both attack and defence.

Challenge yourself to try and perform at a high level in lessons and be selected for the school rugby team! PPS play rugby fixtures against a number of local schools, one of the best ways to improve in rugby is to play the game against others...and whilst training in rugby is enjoyable, it does not beat being involved in a competitive game!

COACH & OFFICIATE

You don't have to be a performer to add value in this sport. **Help out during lessons or assist with school teams! Coaching is one of the most crucial factors in developing, sustaining and increasing participation in rugby union, securing the future and quality of the game.** There are a whole host of reasons why you might wish to become a Rugby Official: to remain active in the sport following injury or retirement, to make new and lasting friends within the game, or to gain a sense of achievement by providing an invaluable service to players, coaches and spectators alike. For information on the various coaching & officiating qualifications available please visit: <http://www.englandrugby.com/my-rugby/coaches/> and <http://www.englandrugby.com/my-rugby/referees/courses/>

SCIENCE

Richard Feynman was a 20th century physicist who was awarded the Nobel Prize in 1965.

A quote from Richard Feynman:

"Fall in love with some activity, and do it! Nobody ever figures out what life is all about, and it doesn't matter. Explore the world. Nearly everything is really interesting if you go into it deeply enough. Work as hard and as much as you want to on the things you like to do the best."

BIOLOGY

In year 8 you will focus on the essential process of digestion and also take a look at microbes (both the good and the bad). Why not take your learning beyond the classroom by completing one or more of the suggested activities below?

Don't forget to let your teacher know when you have completed an activity.

If you have any of your own suggestions of things to read, watch, listen, do or visit, let your science teacher know and we will be sure to include it. **Enjoy!**

SEE

In London
Superbugs exhibition on until Spring 2019 at **Science Museum London.**

Beyond London
Museum of the History of Science in Oxford
<http://www.mhs.ox.ac.uk/>

DO

Check out the **'Small Worlds'** online exhibition in association with the Museum of Science History: <http://www.mhs.ox.ac.uk/smallworlds/>

Prepare one of the healthy meals on the following website. Take photographs of your meal and explain why it forms part of a balanced diet: <http://www.foodfactoflife.org.uk/Sheet.aspx?siteId=20§ionId=82&contentId=277>

CHEMISTRY

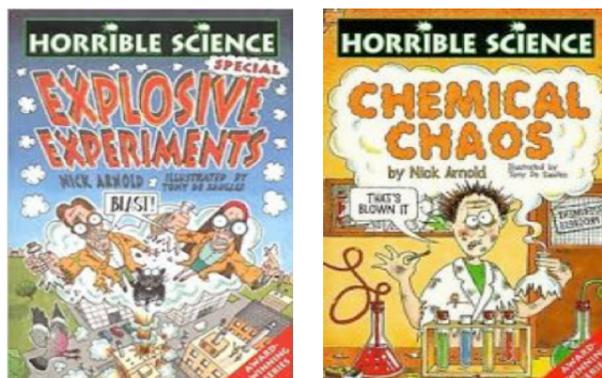

Discover the world of Chemistry outside the classroom! In year 8, you will look at methods of separating mixtures; the Periodic Table of Elements; and distinguishing between chemical compounds and mixtures.

Why don't you challenge yourself and have a go at completing some or all of the suggested activities below:

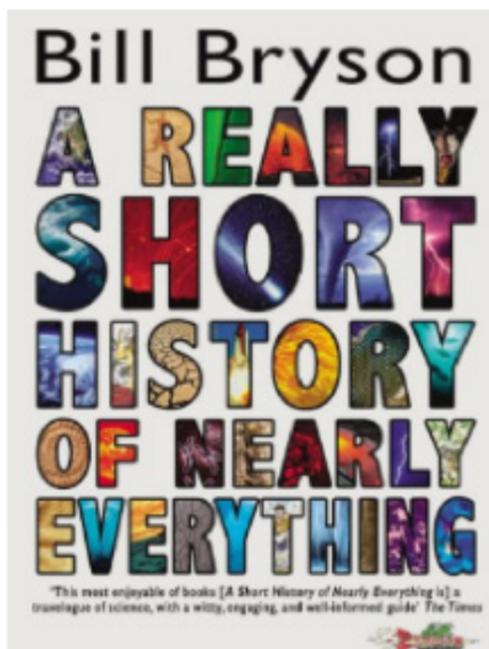

Remember! A good Chemist records their activities so please let your teacher know whether you have completed any!

SEE

In London

The Faraday Museum in the Royal Institution

The highlight of the exhibition is Faraday's magnetic laboratory displayed as it was in the 1850s opposite a current state-of-the-art nanotechnology lab. Plus, test your reaction times and spot the 10 elements discovered at the Royal Institution as they appear in a fast-and-furious Elements song.

Why not taking your learning beyond the classroom? In year 9 you will look at the topics atoms and the periodic table and investigate different materials. If you want to take your understanding to the next level, why not have a go at completing some or all of the suggested activities below.

Remember to let your teacher know when you have completed an activity.

Experience the wonder of different materials in the 'Challenge of Materials' exhibition at the Science Museum.
